

Patrick Banting

Ridgecrest, CA | bantingpatrick1@gmail.com | (760) 818-2817

EDUCATION

California State University, Northridge (CSUN)

Northridge, CA

Bachelor of Science in Computer Science – Expected: May 2027

2024 - Current

- **Relevant coursework:** Data Structures, Algorithms, Software Engineering, Computer Networks, Operating Systems
- Current GPA: 3.19

Cerro Coso Community College

Ridgecrest, CA

Associate of Arts (Math/Science, IGETC Transfer Pathway)

Class of 2024

- Graduated with a 3.2 GPA and earned an Associate of Arts degree, focusing on foundational computer science and math principles.

SKILLS

- **Programming Languages:** Python, Java, C/C++, JavaScript, SQL, HTML/CSS
- **Frameworks & Libraries:** React, Node.js
- **Database Technologies:** MySQL, SQLite
- **Tools & Platforms:** Git, GitHub, Visual Studio Code, Docker, Linux
- **Methodologies:** Agile, Scrum, Object-Oriented Design
- **Additional Skills:** Problem-Solving, Debugging, API, Integration, Version Control

TECHNICAL PROJECTS

E-Commerce Web Application – Java, JavaScript, Docker

- Collaborated with a team to build a fully functional e-commerce platform featuring product browsing, user authentication, and shopping cart functionality.
- Developed front-end components and optimized load performance through efficient API calls.
- Managed deployment through Docker and tracked project progress using Git.

Postfix Expression Calculator – Java

- Designed and implemented a program to evaluate postfix expressions using a custom singly linked list structure.
- Enhanced error handling for input validation and optimized data storage for efficiency.
- Practiced data structure and algorithm principles to handle arithmetic expressions.

Memory Management Simulation – MIPS Assembly

- Developed a low-level program simulating memory allocation and addressing using MIPS instructions.
- Strengthened knowledge of hardware-software interactions by debugging and refining logic operations.

Data Analysis Automation – Python, Pandas, Matplotlib

- Automated data extraction and preprocessing to analyze large datasets, providing visual insights and statistical trends.
- Utilized Jupyter notebooks for dynamic data visualization and exploration.

LANGUAGES

- Filipino (native)
- English (professional)
